[^] **Shaded areas represent grades for which immunization reports are required to be submitted to the Indiana State Department of Health.**

For children who have delayed immunizations, please refer to the 2009 CDC "Catch-up Immunization Schedule" to determine adequately immunizing doses. All minimum intervals and ages for each vaccination as specified per 2009 CDC guidelines must be met for a dose to be valid. A copy of these guidelines can be found at www.cdc.gov/vaccines/recs/schedules/default.htm.

*Four doses of DTaP/DTP/DT are acceptable if 4th dose was administered on or after child's fourth birthday.

**Three doses of polio vaccine are acceptable if 3rd dose was administered on or after child's fourth birthday and the doses are all IPV or all OPV.

~ Two dose alternative adolescent schedule (Recombivax HB given at age 11-15 years x 2 doses) is acceptable if properly documented.

[∞] Physician documentation of disease history, including month and year, is proof of immunity for preschool and kindergarten-aged children. A signed statement from the parent/guardian indicating history of disease, including month and year is required for children in grades 1-12.
