

Go to the logickey web site <http://www.logickey.com/download.htm>  
Download the Logickey SSL Certificate.  
Save the certificate file to the desktop or *somewhere else easily found*.

Then launch Internet Explorer  
Click Tools/Internet Options  
Select the Content tab  
Click the certificates button  
Click import  
A wizard will start...On the first screen click next  
On the second screen browse to location of where you saved  
the certificate file and click next  
It will ask what store to place the certificate in, choose  
automatically select, click next  
Click Finished
