

If you have Print Shop on your computer it will pick the .cer file (certificate) as a Print Shop file.

Users can save the .cer file (certificate) to the desktop or somewhere else easily found then launch Internet Explorer

Click Tools/Internet Options

Select the Content tab

Click the certificates button

Click import

A wizard will start...On the first screen click next

On the second screen browse to the file and click next

It will ask what store to place the certificate in, choose automatically select.... and click next

Click Finished
