

# Faces Come And Go At NP

Mr. Hawley, who is retiring this year, has been teaching for 39 years, nine of these at NP. He teaches Physics, Chemistry, Math and Science.

Mr. Hawley earned his A.B. degree from Central Normal College in 1938, and his M.S. from IU in 1939.

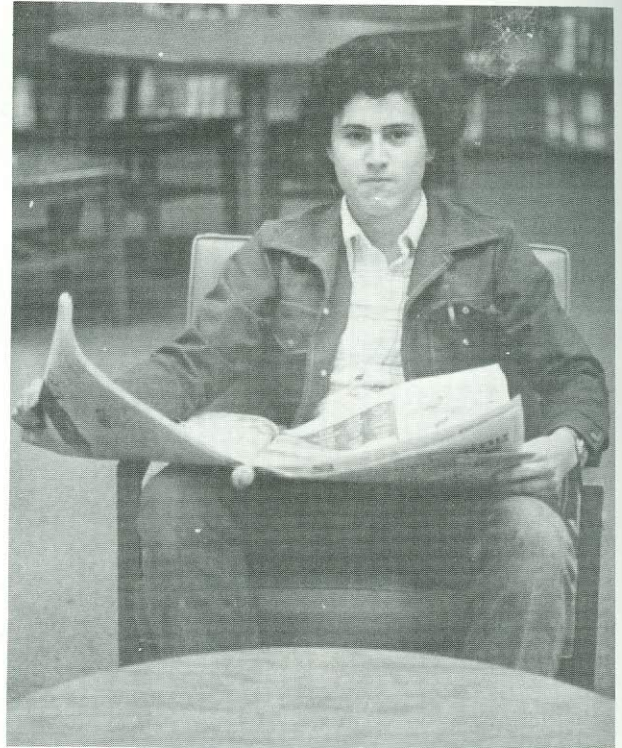

He observed, "Students have not changed too much in the years I have been teaching, but society has become more permissive and this has been reflected in the students."

Victor Grossling, a native Chilean, attends NP under the auspices of the Youth for Understanding program.

Hina Iqbal came to the U.S. from Pakistan with her family in July of '77.

Hina enjoys one of her new experiences, the library.

At the end of the day, Victor relaxes with the newspaper.
