

After I now have spent a year as a student at North Putnam High School, there are a few thoughts that come to mind. I have had a wonderful year and have made many new friends. Basketball was the high point of my school year. All of the help I got from the players and the coaches, and the patience they had with me I will long remember. To be a part of the team and share the joys of winning and the sorrows of defeat was a dream come true.

All in all, my year at North Putnam is something I always will remember. For example, nobody ever found out how to spell my name correctly. Good luck to all my teachers and to my fellow students and friends. Thank you all for a great year.
