

Math

From slide rules to computers — what a change! When North Putnams Math Club first came into being in 1970 it was known as the “Sines of Thetas” and was sponsored by James Myers (retired). Now, in 1989, with Shirley Steward sponsoring the Math Club, things have certainly changed. No longer do they go on field trips to talk to an insurance agent and learn how to use a slide rule. Instead, they go to the Indiana National Bank and learn how to use computers. When talking to the sponsor, Mrs. Steward, about what the students have enjoyed about Math Club she said, “The students have really enjoyed the competition of the Math League tests”. When talking to club members Kevin Ausman and Becky Ward, they gave some very positive comments. “I enjoy the tests”, said Kevin. “I like the excitement of figuring out the Math League tests”, said Becky. Both Kevin and Becky along with Mrs. Steward left me with their club cheer which goes like this, “Secant Tangent Cosine Sine, 3.14159”!

Daniel Carmichael, Brett Higgins, Tania Walton, Vicky Chadd, Tod Ulrey, Becky Ward, Chris Martin, Shannon Smeelink, Jackie Whitley, Amy Cruz, Darcie DeBoer, Julie Porter, Jill Plunkett, Shelly Rigger, Misty Jennings, Kristy Jennings, Chris Gough, Justin Galford, Bill Martin, Julie Strader, Kevin Ausman, Peter Luichinger.

Computer

The Computer Club at North Putnam is on its way out. Unfortunately this is the final year for the club. The big event of the year for the club was the Heart-throb Date Match that was held around Valentines Day. Next year Mrs. Patrick, who sponsored the club, will not be teaching a computer class at the high school. Dawna McGaughey and Peter Luichinger joined the club for fun. Each student said that he or she enjoyed working with computers.

Bobby Chastain, Kevin Ausman, Shannon Smeelink, Jon Sorrell, Dawna McGaughey, Stephanie Miller, Vicki Chadd, Tod Ulrey, Peter Luichinger.

Art Club

The Media Club started in 1969. The objectives of the Media Club are: To learn library skills to help other students use the library. To be able to explore other libraries. To learn audio-visual skills to be able to set up equipment and aid teachers in its use. In the past years the Media Club has attended Indiana State Media Association Conference meetings, had news items published in the ISMA newsletter, and sponsored a delegate to the ISMA meeting. Also, they have had students place in the Regional Media Fair. The club has also visited a television studio and a radio station in Terre Haute and Indian-

apolis. One of our future projects will be to re-organize the media club scrapbook and to put together a new one with pictures, bulletins, programs, and clippings, etc. The purpose of the Media Club is to sponsor a greater interest among students in the use of books and media facilities and stimulate an interest in reading, improve the services of the media center in the school. There is less involvement of students because of meetings having to be scheduled after school. Future hopes are to increase interest in students to learn how the library functions and how to operate all audio-visual equipment.
