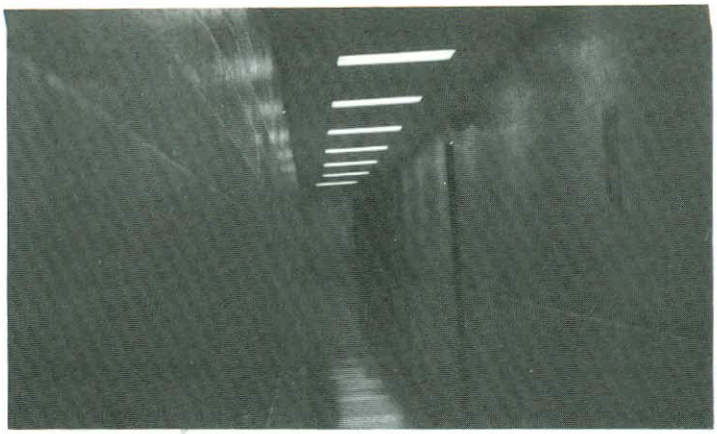
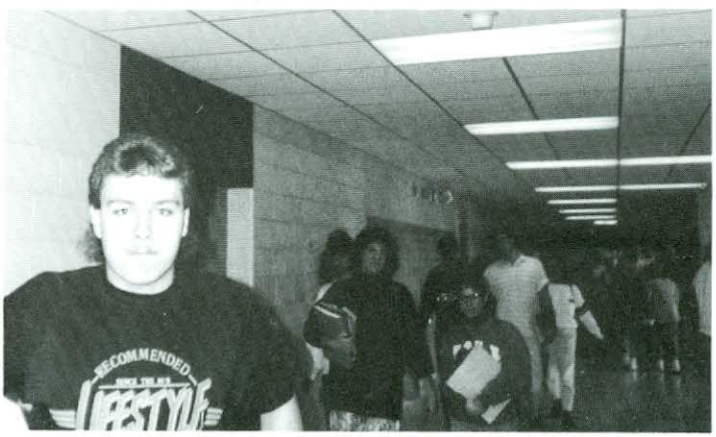
OLD DIMENSIONS NEW HORIZONS



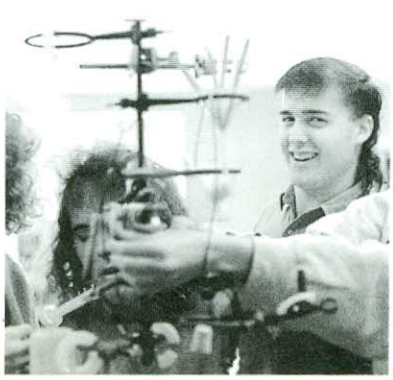


'Old Dimensions, New Horizons'

Look back at your years at North Putnam and you'll probably think of dimensions — Old Dimensions.

You walk through the same halls of the same building for six years of your life. You might ask what made THIS year so unique. Our answer would be simple, "Everything!"

The 1989-90 school year brought new friends, feelings, and faculty to North Putnam. Under the direction of a new principal, vice-principal, and many other new faculty members, the school and the students experienced many positive changes.

One might say there was a new sense of school spirit, springing from a great year of athletics, music, and academics. From sectional championships in volleyball and boys' basketball, to the first-ever sectional win in football. to State Finals for the band and Winter Guard, to a national win for the livestock judging team, we witnessed the North Putnam students contributing their best efforts to make this year one to remember.


As we began a new decade with such great achievements, we learned that dimensions rarely change, but people do. What made this year unique was change. When you look back at 1990, think of the people. Think of change. Think of New Horizons.
