The high school choir has been busy the year of 1990-1991. They performed with the band and junior high music department for the Christmas concert. For the Variety show in April, the choir tried something new. They not only sung, but danced, too. Three weeks after that, the choir went to contest and received a second division, only one point from a first. The choir sold candy to raise money for new robes for the next year. The high school choir was invited to entertain at the dinner for teacher recognition and retirement in the Union Building at DePauw University. The seniors got to pick a song, "The Dreamer," to sing at graduation because it would be the last song that the seniors would sing with the choir.

The Winter Guard performed "Rhythm Is Gonna Get Machine."
