## Memorable Facts

The 1990 football season was filled with great memories. It was North Putnam's first winning season since 1981. The team won more games (10) than any other squad in school history. Most importantly, the Cougars won their first sectional and regional titles ever, as well as ranking in the top ten in class A all year. The season ended with a loss to South Decatur in the Semi-State, 16-13. The Cougars finished their best-ever season at 10-3.

Coach King and the players go wild after winning the regional against Springs Valley, 14-0.
