

Seniors

The Senior Class of 1992 has been together since seventh grade. We have been through lots of changes together and some good times and some bad ones too. Ever since we joined together in the seventh grade we have seen each other change, the school change, and the country change. We have ac-

complished goals and set new ones. We have welcomed new students into our class, as well as, seen others leave. As we look back, it seems like yesterday when we first walked through the doors of North Putnam. As a class we have seen a varsity basketball sectional win, the football team advance to semi-state, a Winterguard Championship, and the senior band members being the first ones to go to state four years in a row. Now that we are seniors and

most of us have future plans, whether it be going to college, getting a job, or getting married and having a family, we all know that it all must come to an end. But we must always keep the memories and the everlasting friendships close to our hearts and always in our minds. So, after we have all parted and went our own ways, just remember one thing, **For A Good Time . . . Stick Together!**
