**For a Good Time . . . Go Cruising**

A lot of changes occur during your sophomore year. One of the biggest is getting your driver's license. Everyone anticipates their sixteenth birthday and receiving

their license. After you become "licensed to drive" your entire world changes. You become more independent, no longer do you have to rely on everyone else to chauffeur you around. There's more to do and more places to go, and,

of course, a license to drive entitles . . . a license to cruise. Cruising seems to be an essential part of teenagers' lives and definitely a vital part of their weekends.
