

Probably the most outstanding achievements of North Putnam students went by without much fanfare. Learning to play a new song, reading an interesting novel, and shooting a left-handed lay-up were all important to the person who accomplished them. Unfortunately, our cameras caught only a few of the individuals who truly deserve to be in this section. What follows on this and the next seven pages are pictures of some of the people who were outstanding during 1991-92.

The Seventh Grade Girls' Basketball Team won the County Championship. (Official team photo appears on page 116.)
