Kristen O'Hair cracks a smile during cheerleader practice.

School can be fun

Time spent after school may have been one of the best times a student had in the school day.

Even though they usually had a lot of work to do in their after-school activities, it wasn't as formal as regular school.

Many times while waiting for practice or meetings to start, they would play cards or talk with their friends and teachers.

Almost all students have had to

stay after school for meetings or practices at one time or another. Most try to make the best out of it all.

Even though the day seems to drag on forever, every student in school had something to look forward to, whether it was staying after school with their friends or leaving directly after seventh hour.
