

SADD

SADD was, and continues to be, more than just a club. The group sparked a wave of emotion when they portrayed a real car crash involving members of the student body. The crash was supposed to be the result of a student's irresponsible decision to drive while under the influence of alcohol.

Viewing exactly what goes on during the rescue process of an accident not only affected the students, but also astonished the faculty and staff. The speakers at the end of the rescue told the students that this scene could happen to anyone at any time. The message portrayed is one to live by: Think twice before you decide to drink and drive. ☉By Crystal Mudgett

Students and faculty view the rescue in progress.
