

## ***FUN IN THE SUN***

What do you do when the school year drags on, temperatures start to rise, and you're just plain tired of studying? You go out and have yourself a fling, and that is just what students and faculty did at Spring Fling '95. Students participated in volleyball, football toss, tug-of-war, soccer, and many other activities including a leisurely picnic. The day's events culminated with everyone gathering in the football stands to watch tug-of-war contest finals, the lip synch competition, and to see members of the faculty get a pie in the face.

Several students sing and wave their hands in unison at the Spring Fling. They were reacting to the senior group lip synch performance of the YMCA.
