

# A Rebuilding Year

By: Crystal Human

"We had an interesting season; we were not a winning team, but we had a really fun season," said coach Funk.

The Soccer team finished the season with only one win and fourteen disappointing losses.

"Viewing the record, most spectators would clarify our season as a bad one. However, I believe everyone on the team greatly improved despite our record. On an overall outlook, I would say we had a successful season," commented Joanna Clodfelter.

Brock Mitchener replied, "I thought we matured a lot as a team, and we got some help from the inexperienced bunch. This was a rebuilding year, and we have several underclass players coming back next year. Even though we only won one game, we made a lot of progress."

With more experience, practice, and determination, next year promises to be better.

Doug DeHoff races down the field in full stride as he pursues the ball. Doug was a freshman player.

"Most people would presume we had a losing season, but actually, it was a winning one."
