## *Injuries Tell the Tale of the 1997-98 Season*

The 1997-98 Season was an up and down experience. Most of it was filled with injuries, and it seemed as if there was always one or two players out with minor problems. "Injuries are one area that is out of our control. This year's team has adjusted well to the adversities that the missing players presented. I believe that our team will be stronger due to the experience everyone gained," commented Coach Dan Nicholson.
