

**Are We Sinking?...** Seniors Brian Helton and Mike Bruce take the boat they constructed in Transportation class for a test ride in the pool.

**(Above Left) Whatchamacallit...** Jesse Rinella works on building a machine that will be able to perform a simple task when completed.

**(Above Right) Is it There?...** Transportation teacher Mr. Paesch gave his students an assignment that consisted of building a boat that would float and could be maneuvered around the pool. As part of the test, students had to drop coins in submerged buckets.

**Building a Better Mouse Trap...** Jason Van Scyok works on his project in the Industrial Arts shop.
