## Let's Kick It!!!

Seven wins made the Cougar soccer season a winning one. The Cougars were led by the seniors this year. There were thirteen seniors in all. Their goal at the beginning of the year was to finish over .500. They accomplished their goal by finishing the regular season 7-6-1. The players and coaches felt as if they accomplished more than just a winning season this year. They only won two games last year and to turn around from a record like that to this year's was really something. The Cougars didn't lose many players last year. So for the same players to step up and make it happen the next season, it showed just how much heart they had. Way to go Cougars!!
