

Science

To the right from left to right : "Dem bones, dem bones, dem chicken bones." Hannah Kerns, Sarah Buchanan, and Mindy Birtchman dissect chicken bones. Mr. Joe Cialkowski shows the correct position of the bone. Tress Goode and Laurel Fordice proudly show their chicken bones.

Middle, left to right: Travis Douglas and Gabe Woodard study how to measure acceleration. Seniors Josh Blaydes, David Duke, and Shawn Smith perform death defying experiments in AP chemistry. Trey Marcum receives an incomplete for eating a biology project.

Bottom from left to right: Freshmen students pose with Mr. Bones. One freshman biology group makes a hopeless effort to save earthworm Jim's life.
