18 years have passed and we are very proud of you and your accomplishments. You have come a long way with many obstacles, aches, and pain; with your inner strength and positive attitude you have battled through them and accomplished your goals.

As you begin another chapter, remember the only thing you can blame on yourself are the choices you make.

Always keep God and Faith with you, make good choices, and with your strength and determination, you will have great success and will make all your dreams and goals come true.

Love, Mom and Dad

Good luck in life! Your little sis, Ashley

The best is yet to be!

Forever Love,  
Mom, Tiffany, and Melissa

You have brought so much joy and pleasure to us for the past 18 years. To reflect a little on that, we remember when you were a baby and how much you relied on your older sister to speak for you, well...that has sure changed. Today you are a beautiful young lady with your own opinions and ideas, and you always seem to get the last word in during a debate. For several years you have been determined and focused on becoming a lawyer. There is no doubt in our minds with those attributes, you will be successful. Best wishes to you and your endeavor, and if you change your career thoughts, just know we stand behind you and your decisions. We love you more than you'll ever know.
