Life at NPHS

Part of the Area 3Q convocation involved a demonstration of impaired driving. Assistant Principal Terry Tippin rides a bike around cones prior to using the simulation goggles.

Wearing the goggles that simulate how it would appear to someone who is driving impaired, Nicole Fowler attempts to maneuver her bike around the cones.

One last convocation was provided by Area 30 and their "Take 5 Arrive Alive" seat-belt presentation. Senior Michael Anderson represented North Putnam.

Mike Davis, foreground, and David Paul take part in leaving their "finger-prints". A new finger scanner will be used in the NPHS cafeteria lines next year.

Megan Robertson pushes down on her thumb to provide a clear print.
