Tuesday, August 9—Section 504

An overview of what you need to know about 504 legislation and how these guidelines impact classroom instruction will be provided. Section 504 requires that all students receive appropriate educational services; services that are designed to meet the individual needs of qualified students to the same extent that the needs of students without a disability are met. Essentially, Section 504 was designed to "level the playing field," to ensure full participation by individuals with disabilities.
